### **Treasurer's Office Receives Commendation from County Board**

June 28, 2012

The Milwaukee County Treasurer's Office yesterday received a commendation from the County Board of Supervisors for its Innovative Responses to Tough Budget Times.

"This is the second time The Treasurer's Office has been recognized for innovations and cost savings," said County Supervisor John Weishan, while making the presentation. "That is good news for everyone in county government."

In response, Diliberti said that he was wanted to share the recognition with the entire staff of the Treasurer's Office and thanked the county's computer services division for their assistance. He also expressed appreciation to the County Board and County Executive for their support for the office's commitment to improving and modernizing county services.

After the ceremony, Diliberti commented on the paradox of the award coming shortly after the near-disaster of being struck by a car in a crosswalk.

"It has been a lengthy recovery from the accident," he said, "and I was grateful for the good news in the midst of it all. I would also like to thank everyone that offered prayers and wishes for my speedy recovery."

Diliberti added that the Treasurer's Office has a continuous quality improvement plan, including additional innovations for the coming year.
